With Elegance

We Have Added Some Clever
Technology...

A hand in a dark suit sleeve holds a glowing white LED lightbulb. The background is dark with white crosshair lines.

ESLITE

LEDs & LAMPS

Shakti industries had made a humble entry in 2008 in to the business of injection molding and blow molding of pet containers . in the later stages of businss shakti industries expanded it to commercial moulding and other plastic goods . In 2012, We have also added LED Lights in our product portfolio.

The company is owned by rich experience persons who are well versed to run large organizations. The group concerns of shakti industries are in to the business of Iron & steel, tobacco , casting , springs and LED lights. one of our director Mr. Prashant Kaushal is a qualified system auditor having vast knowledge in this area.

Shakti industries is managed by a group of professionals having a very rich experience and known face in plastic industry and LED light industry .The core team is (CIPET) and having experience of more than 15 years in the industry.

Our mission is to produce high quality products and give value addition to our clients we are committed to customer satisfaction through on time delivery and cost effective quality products by continuous improvement of process and skill of our employees.

SHAKTI INDUSTRIES

LED BULBS

With excellent quality of Esslite LED bulbs, having CRI rating of at least 80 and above. They use much less electricity than many other lighting products. Unlike CFLs, Esslite LED bulbs contain no mercury. Because of their long life, they also reduce solid waste and hence we support pollution free environment.

LED BULBS available specifications:

0.5W (available in 6 colors), 3W, 5W, 7W, 9W, 12W, 15W, 18W

Available color : Cool white / warm white

Operating voltage : 100 to 300 VAC

Efficacy : 100 lm/w

CRI value : >80

PF : ≥ 0.9

THD : < 20%

Surge protection : $\geq 2.5KV$

Life : 25,000 hrs.

(For indoor use only)

APPLICATIONS

LED-based products are poised to replace legacy light sources in virtually all general lighting applications indoors while also finding substantial use in many other places ranging from automotive headlamps to life-science applications such as horticulture and maintain a strong presence in backlight and display.

PANEL LIGHTS

Esslite LED Panels offer excellent light output which is in range of 80-90 Lumens/watt. Also LED Panels have CIR above 70 which ensures that the true color of object is visible through the light emitted of LED panels. LED panels are manufactured using high quality diffusers which avoids glare to human eye and ensures uniform light is passed through the panel.

LED Panels available specifications:

SLIM PANEL

3W, 6W, 9W, 12W, 15W, 18W, 22W

SURFACE PANEL

6W, 12W, 18W

Available color : Cool white / warm white

Operating voltage : 100 to 300 VAC

Efficacy : 80 lm/w

CRI value : >80

PF : > 0.9

THD : < 20%

Surge protection : >2.5KV

Life : 25,000 hrs.

(Suitable For indoor use only)

APPLICATIONS

LED panel lights are energy efficient replacement for traditional downlights or ceiling lights, suitable for high grade hotels, offices, viewing balcony, corridor, etc.

ESSLITE

TUBE LIGHTS

Esslite tube lights having high efficiency and amazing quality of light. With long life LED technology and up to 25,000 hours usage, this light is the ideal replacement of the traditional tube lights.

Tube Lights

T5 BATTEN

9W, 18W, 22W

T8 RETROFIT

9W, 18W, 22W

Available color : Cool white / warm white

Operating voltage : 100 to 300 VAC

Efficacy : 100 lm/w

CRI value : >80

PF : > 0.9

THD : < 20%

Surge protection : >2.5KV

Life : 25,000 hrs.

(For indoor use only)

RECESSED SPOT LIGHT

This powerful recessed spotlight blends in perfectly with your décor, making it ideal for any style of room. Small but perfectly formed, the flippable LED light sits inside a minimalist aluminium frame that fits flush with your ceiling.

Specification :

2W spot

Shape : Round and square

CCT : 2700K/6500K

PLASTIC DOWNLIGHTER

Plastic downlights having inbuilt driver, suitable for recessed ceiling. We can use these downlighter in ceiling having concealed Box too.

Specification :

3W, 5W, 7W, 9W, 12W, 15W

2W Spot Light

Plastic Down Lighter

COB DOWNLIGHT

This powerful recessed COB downlight have mirror reflectors which blends in perfectly with your décor, making it ideal for any style of room. The housing is die-cast aluminium with white powder coated. In addition the COB downlight is built specifically for a widely application as task lighting in residential and commercial space.

COB Downlights available specifications:

5W, 9W, 15W, 22W, 30W

Available color : Cool white / warm white

Operating voltage : 100 to 300 VAC

Efficacy : >70 lm/w

CRI value : >80

PF : > 0.9

THD : < 20%

Surge protection : >2.5KV

Life : 25,000 hrs.

(For indoor use only)

STREET AND FLOOD LIGHT

They are featured by high illumination, energy-saving; stable working performance, non-burying cables, and long life-span. They are used to brighten up places like stadiums, parks, playgrounds etc. These are eco-friendly as they make use of solar energy for illumination.

SPECIFICATIONS :

20W,40W, 60W, 80W, 100W, 150W, 200W

IP : available 65 and 67

Efficacy : >70 lm/w

Material : Aluminum Die- cast housing

Surge protection : >4 KV

(For outdoor use)

FLOOD LIGHT

LED Street light
